

Optimized Postal Preparation

A mailing that is properly addressed within the required timeframe — this is the dream of every marketing specialist.

We obtain all the permits required in Canada, the U.S.A. and abroad, and we do all the sorting by letter carrier route and U.S. bar codes.

We overlook nothing in order to ensure the quality and efficiency of all the operations involved right up to the final delivery to the offices of Canada Post, the United States Postal Service, and even to international postal offices.

Our expertise, knowledge and quality control ensure a job well done.

We can provide you with a post office box and the permits required in Canada or the U.S.A. for the return of your mailings, and we pick-up daily.

For non-addressed admail, we can use your database to execute a geographic and demographic analysis, and recommend a better-targeted distribution that could reduce your costs and increase your profitability.

Our mandate is to serve you.
